

THE GLOBAL DRILLING MACHINE

THE NEXT GENERATION OF TOP DRIVE PERFORMANCE

The GDM Top Drive line is manufactured under API 8C License No 8C-0161 using the highest quality North American built components.

Available in 150 ton through 1000 ton models, the GDM has improved torque and RPM for increased performance.

The GDM includes a state-of-the-art SMART control system that improves reliability with accurate data.

Preventative and predictive maintenance software teaches rig crews to get the most out of your investment. Additional safety features include remote monitoring and remote trouble shooting capabilities.

TOP DRIVE REPAIRS AND RECERTIFICATIONS

Quality top drive repairs and recertifications are how GDS built its reputation as an outstanding service company. Our experienced technicians have decades of technical knowledge on the largest variety of top drives in the industry. We specialize in emergency quick-turn repairs in our strategically located facilities in Houston, Dubai, and Russia. We perform vertical run testing on all top drive systems, utilizing our custom-designed dynamometer to ensure that your top drive is returned to you in "like-new" condition. We also service catwalks, drawworks, traveling blocks, service loops, pipe handlers, and IBOP actuators. GDS fully complies with all industry licensing, including API Spec 8C (license number: 8C-0161).

- ▶ 1000 Day Inspections to API spec
- ▶ Major Overhauls
- ▶ Dyno Testing
- ▶ Hydraulic and Electric models
- ▶ Fast Turn Times
